Notes

[1] Maintained pushbuttons can be converted in the field to momentary operation by switching the locking ring, which is accessible through the side of the operator body.

[2] Includes contact block mounting adapter.

[3] Buttonless operator comes with three color buttons (black, red, green).

[4] Buttonless operator comes with all six color buttons (black, white, red, green, yellow, blue).

Note: This pilot device features a selectable function switch that enables the device to be set to either maintained or momentary operation.
